

FEBRUARY IS NATIONAL PET DENTAL HEALTH MONTH

Oral Disease is the #1 health problem diagnosed in dogs and cats, and can lead to kidney disease and heart disease.

Without proper dental care, **80% of dogs and 70% of cats** show signs of Oral Disease by age three according to the American Veterinary Dental Society (AVDS).

Signs of Oral Disease:

- A bad odor to the breath
- Discolored teeth
- Reddened gums
- Drooling
- Reluctance to eat hard foods
- Tooth loss
- Swallowing food whole
- Change of chewing or eating habits
